Parsabiv®  
Safety Data Sheet  
Revision Number:  6  
Date Issued  12-Oct-2022

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERSTANDING

1.1 Product identifier
Product Name:  Parsabiv®
Common Name:  Etelcalcetide HCl
Chemical Name:  N-Acetyl-D-cysteinyl-S-(L-cysteine disulfide)-D-alanyl-D-arginyln-D-arginyl-D-arginyl-D-alanyl-D-argininamide, hydrochloride salt
Synonyms:  AMG 416, KAI-4169

1.2 Relevant identified uses of the substance or mixture and uses advised against
Recommended Use:  Pharmaceutical
Uses advised against:  No information available

Manufacturer:  Amgen Inc.
One Amgen Center Drive
Thousand Oaks, California 91320-1799
1-805-447-7233
1-805-447-1000

Emergency Telephone Number:  Chemtrec
NORTH AMERICA 1-800-424-9300,
INTERNATIONAL 1-703-527-3887

2. HAZARDS IDENTIFICATION

Emergency Overview
Pharmaceutical product intended for clinical and commercial manufacturing purposes only. Product contains etelcalcetide HCl, an active pharmaceutical ingredient, for treatment of secondary hyperparathyroidism (sHPT) in patients with chronic kidney disease (KD) on hemodialysis. Dosage contents may pose a health hazard only if significant absorption occurs (e.g. inhalation after a major spill). Avoid inhalation, skin contact, eye contact and accidental ingestion. Based on available data, the GHS classification criteria are not met.

2.1 - Classification of the drug substance or mixture (drug product in final form, not applicable)  
REGULATION (EC) No 1272/2008

Not classified

2.2 Label elements
Not classified

2.3 Other Hazards  No information available
3. COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances

Ingredients: See below

Chemical Name: N-Acetyl-D-cysteinyl-S-(L-cysteine disulfide)-D-alanyl-D-arginyln-D-arginyln-D-arginyln-D-alanyl-D-argininamide, hydrochloride salt

CAS-No: 1262780-97-1 (free base); 1334237-71-6 (hydrochloride salt)

Supplied for intravenous administration as a sterile, single-use, preservative-free liquid solution in 3 strengths: 2.5 mg etelcalcetide in 0.5 mL (5 mg/mL) solution, 5 mg etelcalcetide in 1 mL (5 mg/mL) solution, and 10 mg etelcalcetide in 2 mL (5 mg/mL) solution. All strengths are formulated with sodium hydroxide and succinic acid.

4. FIRST AID MEASURES

4.1 Description of first-aid measures

Eye Contact: In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Skin Contact: Wash off immediately with soap and plenty of water removing all contaminated clothes and shoes. Consult a physician if necessary.

Inhalation: Move to fresh air. If symptoms persist, call a physician.

Ingestion: If symptoms persist, call a physician. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person.

Notes to Physician: Treat symptomatically.

5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Flammable Properties: No information available.

Extinguishing Media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

5.2 Special hazards arising from the substance or mixture

Hazardous Combustion Products: No information available.

5.3 Advice for firefighters

Protective Equipment and Precautions for Firefighters: As in any fire, wear self-contained breathing apparatus pressure-demand, NIOSH (approved) and full protective gear.
6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Spill Procedures: If material is released or spilled, cordon off spill area. Take proper precautions to minimize exposure by using appropriate personal protective equipment in cleaning up a spill. If in powder form, wet down spilled material to minimize airborne dispersion. Soak up material with absorbent e.g., paper towels, and wash spill area thoroughly with appropriate cleaning materials. Dispose of collected material in accordance with applicable waste disposal regulations. Avoid release to the environment.

7. HANDLING AND STORAGE

7.1 Precautions for Safe Handling

Handling and Storage: Avoid contact with skin, eyes or clothing. Do not eat, drink or smoke in work areas. Use adequate ventilation to minimize exposure. Wash hands, face and other potentially exposed areas immediately after handling this material. Remove contaminated clothing prior to entering eating areas. Clean protective equipment thoroughly after each use. Store in a well ventilated area.
8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

**Occupational Exposure Limit:** No exposure guidelines established by ACGIH, NIOSH or OSHA. Amgen recommends an occupational exposure limit (OEL) of 6 µg/m³ as an 8-hour time weighted average over a 40-hour work week. The OEL is designed as an acceptable airborne concentration of a substance for which it is believed that workers may be repeatedly exposed day after day without adverse health effects. Etelcalcetide HCl has been classified per Amgen's Hazard Classification System as an Occupational Exposure Band 4 compound (5 µg/m³ - 20 µg/m³).

**Engineering Controls:** When practicable, handle material in enclosed processes or in processes with effective local exhaust ventilation or within a chemical hood.

8.2 Exposure controls

**Personal Protective Equipment**

**Eye/face Protection:** Wear safety glasses with side shields, chemical splash goggles, or safety glasses with side shields and a full-face shield to prevent contact with eyes. The choice of protection should be based on the job activity and potential for exposure to the eyes and face.

**Skin Protection:** Use gloves or other appropriate personal protective equipment if skin contact with formulation is possible. Wear lab coat or other protective over garment if splashing is possible. The choice of protection should be based on the job activity and potential for skin contact.

**Respiratory Protection:** When possible, handle material in enclosed processes or containers. If it is properly handled with effective local exhaust ventilation or containment, respiratory protection may not be needed. For procedures involving larger quantities or dust/aerosol generating procedures such as weighing or a large transfer of liquids, an air-purifying respirator with NIOSH approval for dusts and mists may be needed. The choice of protection should be based on the job activity and the potential for exposure.

**Other:** Wash hands, face and other potentially exposed areas after handling material (especially before eating, drinking or smoking). Clean protective equipment thoroughly after each use.

8.3 Environmental exposure controls

**Environmental Exposure Controls** Avoid release to the environment.
9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: White to off-white lyophilized powder (HCl Salt and drug product)
Clear, colorless liquid (liquid drug product)
Molecular Weight: 1 kDa
Odor: No information available
Odor Threshold: No information available
pH: No information available
Melting point (°C) VALUE No information available
Flash Point: No information available
Evaporation Rate: No information available
Lower explosive limit: No information available
Upper explosive limit: No information available
Vapor Pressure: No information available
Vapor Density (air = 1): No information available
Relative density: No information available
Water Solubility: At least 100 mg/mL (HCl salt and drug product),
Fully miscible with water (liquid drug product)
Partition Coefficient (log Kow): No information available
Viscosity: No information available

10. STABILITY AND REACTIVITY

10.1 Reactivity No information available
10.2 Chemical stability No information available
10.3 Possibility of hazardous reactions No information available
10.4 Conditions to avoid No information available
10.5 Incompatible materials No information available
10.6 Hazardous decomposition products No information available
10.7 Other information Dust Explosion Hazard Properties tested on etelcalcetide HCl API:
MIE >1000mJ
MIT (dust cloud) >600° C
MEC 180< MEC<225; MEC estimate 225 g/m³
Kst 42 bar-m/sec ± 30%
Pmax 6.1 bar ± 10%

Electrostatic Properties tested on etelcalcetide HCl API:
Volume resistivity: 9.33 x 10¹⁵ Q-cm
Calculated Dielectric Constant: 1.97
Measured Decay Time: 3 sec
11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

- **Acute Toxicity:** No information available
- **Skin corrosion/irritation:** No information available
- **Serious eye damage/eye irritation:** No information available
- **Respiratory or skin sensitization:** No information available
- **Germ cell mutagenicity:** GHS classification criteria not met. Not genotoxic based on a battery of in vitro and in vivo studies.
- **Carcinogenicity:** GHS classification criteria not met. Did not show carcinogenic effects in animal experiments.
- **Reproductive toxicity:** GHS classification criteria not met. Etelcalcetide HCl did not effect developmental toxicity following intravenous exposure in rats and rabbits. Also, no reproductive/fertility toxicity has been observed in male and female rats intravenously administered etelcalcetide HCl.
- **STOT - single exposure:** Does not meet GHS Classification Criteria and therefore is not classified.
- **STOT - repeated exposure:** Does not meet GHS Classification Criteria and therefore is not classified.
- **Aspiration Hazard:** No information available

12. ECOLOGICAL INFORMATION

12.1 Toxicity

- **Ecotoxicity effects:** No information available

12.2 Persistence and degradability

- **Persistence/Degradability:** No information available

12.3 Bioaccumulative potential

- **Bioaccumulation/ Accumulation:** No information available

12.4 Mobility in soil

- **Mobility in Environmental Media:** No information available

12.5 Results of PBT and vPvB assessment

- **Results of PBT and vPvB assessment:** No information available

12.6 Other adverse effects

- **Other Adverse Effects:** No information available

13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

- **Waste Disposal Method:** Dispose of waste according to prescribed federal, state, local and competent authority guidelines.
**14. TRANSPORT INFORMATION**

**DOT:** Not regulated by U.S. DOT, IATA, or IMDG.

**15. REGULATORY INFORMATION**

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**International Inventories**

**State Regulations**

**California Proposition 65:** This product does not contain any Proposition 65 chemicals.

**15.2 Chemical safety assessment**

No CSA has been conducted.
Revision Number: 6

To the best of our knowledge, the information provided here is accurate as of the date of the Safety Data Sheet (SDS). The information is specific to the material that is the subject of this SDS and may not be valid when this material is used in combination with any other materials or in any process. Each user should review the information provided here in the context of the user's intended manner of handling, using, processing, storing, transporting, and disposing of the material.

This information is provided without warranty or guarantee of any kind, whether express, implied or statutory, including without limitation warranty of fitness or merchantability for a particular purpose or noninfringement. No representation, warranty, or guarantee is made, and no liability is assumed, with respect to the material or the information contained in this SDS including without limitation its accuracy or completeness or the hazards of, or results obtained from, use of the material or the information contained here. Caution should be used in the handling, using, processing, storing, transporting, and disposing of the material.
